

CURRICULUM VITAE

Name: Jan Willem Brascamp Associate professor
E-mail: brascamp[at]msu[dot]edu Michigan State University

EDUCATION

2008	Helmholtz Institute, Utrecht University, The Netherlands	PhD in neurobiology (<i>cum laude</i>), supervisor: A.V. van den Berg
2001	Wageningen University, The Netherlands	MSc in biology (<i>cum laude</i>)
1999	Wageningen University, The Netherlands	BSc in biology

PROFESSIONAL APPOINTMENTS

Associate professor, Michigan State University, 2021-current
Assistant professor, Michigan State University, 2015-2021
Research assistant professor, Utrecht University, 2012-2015
Visiting scholar, University of Amsterdam, 2012-2015
Post-doctoral research fellow, lab of Serge Dumoulin at Utrecht University, 2011-2012
Post-doctoral research fellow, lab of Randolph Blake at Vanderbilt University, 2009-2011
Post-doctoral research fellow, lab of Raymond van Ee at Utrecht University, 2008

PEER REVIEWED JOURNAL PUBLICATIONS

H.G. Frey, L. Koenig, B.J. He, N. Block and J.W. Brascamp (submitted) Memory representations during slow change blindness. *Journal of Vision*.

H.G. Frey, L. Koenig, B.J. He and J.W. Brascamp (2024) A novel, semi-automatic procedure for generating slow change blindness stimuli. *Neuroscience of Consciousness*, 2024(1), niae004.

K.N. Thakkar, S. Silverstein, J. Fattal, J. Bao, R. Slate, D. Roberts and J.W. Brascamp (2024) Stronger tilt aftereffects in individuals diagnosed with schizophrenia spectrum disorders but not bipolar disorder. *Schizophrenia Research*, 264: 345-353.

A.P. Burgoyne, S. Saba-Sadiya, L.J. Harris, M.W. Becker, J.W. Brascamp and D.Z. Hambrick (2023) Revisiting the self-generation effect in proofreading. *Psychological Research*, <https://doi.org/10.1007/s00426-022-01699-3>.

J. Fattal, J.W. Brascamp, R.E. Slate, M. Lehet, E.D. Achtyes and K.N. Thakkar (2022) Blunted pupil light reflex is associated with negative symptoms and working memory in individuals with schizophrenia. *Schizophrenia Research*, 248: 254-262.

B. Zhang and J.W. Brascamp (2022) Modest effect of knowledge on bistable perception of structure-from-motion. *Vision Research*, 201: 108118.

J.W. Brascamp and S.K. Shevell (2021) The certainty of ambiguity in visual neural representations. *Annual Review of Vision Science*, 7: 465-486.

J.W. Brascamp, G. de Hollander, M.D. Wertheimer, A.N. DePew and T.H.J. Knapen (2021) Separable pupillary signatures of perception and action during perceptual multistability. *eLife*, 10:e66161.

J.W. Brascamp (2021) Controlling the spatial dimensions of visual stimuli in online experiments. *Journal of Vision*, 21(19).

A.R. Jagtap and J.W. Brascamp (2021) Does cortical inhibition explain the correlation between bistable perception paradigms? *i-Perception*, 12(3): 1-18.

M.C. Chandler, A.L. McGowan, J.W. Brascamp and M.B. Pontifex (2021) Phasic activity of the locus-coeruleus is not a mediator of the relationship between fitness and inhibition in college-aged adults. *International Journal of Psychophysiology*, 165: 1-7.

K.N. Thakkar, L. Ghermezi, S.M. Silverstein, R. Slate, B. Yao, E.A. Achtyes and J.W. Brascamp (2021) Stronger tilt aftereffects in persons with schizophrenia. *Journal of Abnormal Psychology*, 130(2): 186-197.

J.W. Brascamp, P. Cuthbert and S. Ling (2020) Binocular rivalry suppression depends on conflict defined by global gestalt. *Journal of Vision*, 20(13):3, 1-11.

M.W. Becker, K. Anderson and J.W. Brascamp (2020) A novel, unbiased approach to evaluating subsequent search misses in dual target visual search. *Attention, Perception, & Psychophysics*, 82: 3357-3373.

M.A.B. Brinkhuis, Á. Kristjánsson, B.M. Harvey and J.W. Brascamp (2020) Temporal characteristics of priming of attention shifts are mirrored by BOLD response patterns in the frontoparietal attention network. *Cerebral Cortex*, 30(4): 2267-80.

- J.W. Brascamp, C.S. Qian, D.Z. Hambrick and M.W. Becker (2019) Individual differences point to two separate processes involved in the resolution of binocular rivalry. *Journal of Vision*, 19(15).

TEACHING

Introduction to Cognitive Science (LIN 463), Michigan State University, 2016-current

Cognitive Psychology (PSY 200), Michigan State University, 2015-current

Guest lecturer, Systems Neuroscience, Seoul National University, 2015

Cognitive Neuroscience I, University College Utrecht, 2013

Guest lecturer, Introduction to Cognitive Sciences, Utrecht University, 2012-2013

Teaching assistant, Neurobiology, Utrecht University, 2004-2008

Teaching assistant, General Zoology, Wageningen University, 1999-2001

GRANTS AND AWARDS RECEIVED

2021-2026	\$1.9M	R01 research grant from the National Institutes of Health, in collaboration with PI Katharine Thakkar. Role: co-I
2021-2023	\$3.2M	Templeton World Charity Foundation, in collaboration with Project Director Biyu He, Co-directors Ned Block and David Chalmers, and Primary Investigators Rachel Denison and Megan Peters. Role: Primary Investigator.
2019-2020	\$110k	Michigan Department of Transportation, in collaboration with PI Ali Zockaie. Role: co-PI
2017-2022	\$424k	R01 research grant from the National Institutes of Health, in collaboration with PI Sam Ling. Role: co-I
2016	€3k	Utrecht University 'Seed Money' award international travel, in collaboration with Sjoerd Stuit. Role: host
2016	\$7k	MSU College of Social Sciences Faculty Initiatives Fund Award, in collaboration with Katharine Thakkar. Role: co-PI
2013-2016	ISK10900k	Project Grant from the Icelandic Research Fund Rannís for funding a PhD project, in collaboration with co-PI Árni Kristjánsson. Role: co-PI

Jan W. Brascamp, PhD

2012-2015	€250k	Veni early career grant from the Netherlands Organisation for Scientific Research (NWO). Role: PI
2009-2011	€45k	Rubicon grant for postgraduate research from the Netherlands Organisation for Scientific Research (NWO). Role: PI
2008		Grant-in-aid. British Council Partnership Programme in Science. Role: PI
2008		Received PhD degree <i>cum laude</i> (awarded to <2% of students)
2008		Sponsored participation. European Summer School on Visual Neuroscience—From spikes to awareness, Rauschholzhausen, Germany
2008		Travel award. Worldwide Universities Network Research Mobility Programme
2007-2008		Graduate student travel grant. IIE Fulbright Program
2007		Travel award. Elsevier/Vision Research Travel Award for the 2007 annual meeting of the Vision Sciences Society
2001		Received MSc degree <i>cum laude</i> (awarded to <2% of students)

INVITED TALKS

Nov 2022	Spinoza Centre Amsterdam	Separable pupillary signatures of perception and action during perceptual multistability
Mar 2022	MSU Museum	FOMO?: Change blindness and selective attention
Jan 2022	TU Darmstadt	Separable pupillary signatures of perception and action during perceptual multistability
Jan 2021	Online webinar Attention, perception and temporal context (https://aptc2021.github.io)	Attractive and repulsive history effects in visual perception
Feb 2019	Harvard University	The resolution of ambiguity in the visual system
Nov 2018	University of Chicago	Visual perception under conditions of ambiguity
Sept 2018	European summerschool for visual neuroscience, Rauschholzhausen, Germany	Using multistability to understand how sensation turns into perception
April 2018	University of Wisconsin-Madison	Multistable perception, and the role of frontoparietal cortex in perceptual inference
Mar 2017	University of Iceland, Reykjavik, Iceland	Visual perception under conditions of ambiguity: the roles of sensory and non-sensory factors
Mar 2016	McMaster University, Hamilton, Canada	The involvement of frontal and parietal cortex in human visual perception
May 2015	Seoul National University, Seoul, South Korea	What is the role of frontal and parietal brain areas in bistable perception?
Feb 2015	University of Sussex, Brighton, UK	Parietal involvement in changes in the perception of ambiguous stimuli
Feb 2014	Université Paris Descartes, Paris, France	Relations between perceptual interpretation and selective attention
Dec 2013	Donders Institute, Nijmegen, Netherlands	Selective attention and unconscious inference
Nov 2013	Free University Amsterdam, Amsterdam, Netherlands	Interpretation and selection in binocular rivalry
May 2012	Korea University, Seoul, Korea	Binocular rivalry requires attention
April 2012	Seoul National University, Seoul, South Korea	Binocular rivalry requires attention
Sept 2011	Utrecht University, Utrecht, Netherlands	The role of frontal and parietal areas in bistable perception
June 2011	Radboud University, Nijmegen, Netherlands	What causes perception of bistable stimuli to alternate?
June 2011	University of Amsterdam, Amsterdam, Netherlands	Decoupling binocular rivalry from conscious perception
June 2011	Netherlands Institute for Neuroscience, Amsterdam, Netherlands	The role of frontal and parietal areas in bistable perception
July 2009	Université Paris Descartes, Paris, France	A dissociation of attention and awareness in phase sensitive but not phase insensitive visual neurons
Oct 2008	Otto-von-Guericke University, Magdeburg, Germany	Ambiguous images reveal history dependence in visual processing
May 2008	UCL Gatsby Theoretical Neuroscience Unit, London, UK	History dependence of visual selection studied with ambiguous images
July 2007	University of Southampton, Southampton, UK	Persistence and decay of perceptual memory for ambiguous stimuli
June 2007	Helmholtz Institute, Bergen, Netherlands	History dependence in perception of ambiguous stimuli
May 2007	New York University, New York, USA	Perceptual memory of ambiguous figures survives spontaneous perceptual alternations
Nov 2006	Academic Medical Centre, Amsterdam, Netherlands	The dual nature of flashes in binocular rivalry
June 2006	California Institute of Technology, Pasadena, USA	Stabilization of bistable perception
May 2006	Stanford University, Palo Alto, USA	Adaptation and noise in bistable perception
May 2006	University of California, Berkeley, USA	Adaptation and noise in bistable perception
July 2005	Helmholtz Institute, Bergen, Netherlands	A common standard for measuring motivational and physical variables in binocular rivalry
