RESEARCH EXPERIENCE

Health and Justice Lab, Indiana University School of Medicine May 2023 – June 2025

Title: Project Manager, FORTRESS (R61DA057660/R33DA057660)

Principal Investigator: Matthew Aalsma, Ph.D.

- Coordinated the development of [Indiana's Overdose Touchpoint Dashboard](#)
- Developed project measures, including a survey codebook, a qualitative interview guide, and a novel overdose fatality review team fidelity monitoring tool
- Managed the administrative work of the FORTRESS project including IRB and clinicaltrials.gov protocol creation and management, data collection, and participant recruitment
- Trained local health, safety, and service leaders on leveraging population-level data to expand overdose prevention services in their communities

Title: Grant Writing Support

May 2024 – June 2025

- Successfully guided the transition of the FORTRESS project from an R61 award to an R33 award
 - Created a milestones document to report on activities from the R61 phase of the project

- Prepared key grant documents including the research strategy, human subjects' forms, and clinical trial forms for the R33 award application
- Supported a P50 Research Center of Excellence award application
 - Prepared application materials including key figures and human subjects' forms
 - Proofed key application documents before submission
 - Managed application citations and bibliography

SADCAT Lab, Indiana University

August 2022 – May 2023

Title: Undergraduate Research AssistantPrincipal Investigator: Lorenzo Lorenzo-Luaces, Ph.D.

- Completed directed readings on the classification, etiology, and treatment of mood disorders
- Attended weekly lab meetings to discuss recent literature and provide input on project proposals
- Received training as a virtual coach to support adults experiencing psychological distress for the Doing What Matters study evaluating the effectiveness of a coach-supported, manualized intervention for mild mood disorders

Family Relationships Lab, Indiana University

April 2022 – May 2023

Title: Lab CoordinatorPrincipal Investigator: Amy Holtzworth-Munroe, Ph.D.

- Coordinated the reception of intimate-partner violence screening data from the Baltimore County court system for a project that included over 1,600 divorcing couples
- Conducted qualitative coding on focus groups to assess the implementation of an intimate-partner violence screen in a family court
- Managed a team of nine undergraduate research assistants by assigning weekly tasks—including data coding and data cleaning—and leading lab meetings where we discussed recent literature on violence perpetration in diverse contexts
- Provided mentorship to undergraduate research assistants to help them pursue careers in research and clinical work by hosting professional development workshops

Developmental Psychopathology Lab, Indiana University

May 2021 – May 2023

Title: Undergraduate Research AssistantPrincipal Investigator: Brian D'Onofrio, Ph.D.

- Conducted literature reviews on the role of early life factors in the etiology of neurodevelopmental disorders
- Completed an independent capstone project on substance use disorder in the foster care system and the empirical evidence against punitive policies for prenatal substance exposure
- Completed an honors thesis using data from the Adolescent Brain and Cognitive Development Study to assess the role of fetal growth restriction in the development of separate impulsogenic traits in a sample of 11,000 adolescents
- Assisted a graduate student with a systematic review on associations between benzodiazepine use and suicidal behavior

TEACHING EXPERIENCE

Department of Psychological Sciences, Ball State University

November 2024

Title: Invited PanelistCourse: Research Methods in Psychological Science

- Discussed opportunities for careers in clinical research with undergraduate students

Department of Psychological & Brain Sciences, Indiana University

January 2022 – May 2023

Title: Undergraduate Teaching Assistant

- Received pedagogical training through a course on teaching methods
- Graded exams and assignments, proctored exams, held office hours, and held review sessions

Courses:

Psychotherapy: Empirically Supported Treatments	Spring 2023
Neuroscience	Spring 2023
Clinical Neuroscience	Fall 2022
Introductory Psychology	Spring 2022

CLINICAL EXPERIENCE AND CERTIFICATIONS

Bloomington Neurofeedback, Bloomington, Indiana

February 2021 – June 2021

Title: Clinical Intern

- Worked with children and adolescents with disruptive behavioral disorders
- Connected clients to an electroencephalogram machine and performed EEG assessments
- Conducted structured intake interviews to assess mood, sleep quality, behavior, and suicidality
- Arranged client appointments and organized confidential client files
- Wrote client notes following treatment sessions
