Objectives:

- To examine core topics in industrial/organizational psychology in light of current trends in society and the workplace
- To apply psychological principles to understanding and addressing changes in the workplace
- To enhance skills in critically evaluating research in I/O psychology
- To develop novel hypotheses grounded in psychological research that speak to current workplace trends
- To enhance skills as a writer in the discipline through a variety of writing tasks and feedback (Tier II writing course)

Readings and Assignments:

All readings and assignment instructions are available on D2L. There is no textbook purchase required. It is expected that you will complete readings before class and come to class prepared to discuss. Some readings will be the basis of assignments; others will be the basis of in-class activities that are also graded. Thus, preparation is important.

Check your D2L account and university email regularly for information and updates. Grades are posted on D2L in a timely manner; please be sure to alert me of any concerns within one week of posting.

All assignments will be turned in through drop boxes on D2L. Assignments are due at the start of class on the date due. Assignments turned in late will automatically be deducted 30% if turned in within 24 hours, but not accepted at all thereafter (unless accompanied by documentation, such as that indicated by MSU’s grief absence policy).

Assessments of learning:

- Reflections (5 @ 25 points each) 125 points
- Research Critiques (7 @ 30 points each) 210 points
- Participation (25 @ 5 points each) 125 points
- Prognostication paper
  - Presentation 40 points
  - Final paper 100 points

TOTAL 600 points
There are no extra credit opportunities. There are multiple means of assessment in the course that provide you with the chance to demonstrate your capabilities. You may turn in additional reflections or critiques and I will drop the lowest grade (i.e., there are 6 Reflection opportunities and you need to do 5; there are 10 critique opportunities and you need to do 7; there are 29 participation opportunities and you need to do 25 to receive maximum credit).

The aim of Reflection assignments is for you to think about the applicability of a workplace trend to I/O topics and also to your own life, as well as to formulate a viewpoint based on news/opinion pieces. The aim of Critique assignments is to assist you in reading and critically evaluating research in I/O psychology (they are critiques, not just summaries). The aim of the Prognostication paper is to allow you to do a more in-depth examination of a topic of interest to you while developing your critical thinking, research and writing skills.

**Grade cutoffs:**
- 550 points and above 4.0
- 515-549 points 3.5
- 490-514 3.0
- 450-489 2.5
- 420-449 2.0
- 390-419 1.5
- 360-389 1.0
- Below 360 0.0

**Attendance and Participation**

This is an upper level class so the expectation is not just that you will attend but that you will **participate**. In-class participation in various activities and thought exercises does count toward grades. Calculation of participation points does consider that you may miss classes due to illness and other emergencies, so there are ample opportunities throughout the term to gain participation points. There are 29 classes where participation credit might be earned and one could potentially get full credit from 25 class periods – this is a very generous policy. Note that credit is based on the quality of participation not just attendance – points are deducted if you are present but are not contributing/are inattentive/put in only cursory effort. There are no opportunities to make up for missed participation, although all in class activities are posted on D2L for your reference after classes. Grief absence information is available at [http://splife.studentlife.msu.edu/regulations/selected/grief-absence-policy](http://splife.studentlife.msu.edu/regulations/selected/grief-absence-policy).

**Class Schedule (subject to change)**

Reading assignments by date and full references for readings are at the end of this syllabus. If a link does not work on D2L, you should access the reading through free library database resources by looking up the reference. That is, there is no excuse for not doing a reading.
Miscellaneous policies

**Academic Integrity**: Please refer to [https://ombud.msu.edu/academic-integrity/index.html#integrity](https://ombud.msu.edu/academic-integrity/index.html#integrity) for details on academic integrity and your rights and responsibilities. Specific to this course, a penalty grade of 0 points is given on any assignment where an individual claims or submits work of another as one’s own (including plagiarism of whole or part of another’s work), completes or attempts to complete in-class work for someone not in attendance, or in any way misrepresents one’s completion of assignments or in-class work.

**Electronic devices**: We often access online materials during class for activities so plan to have a device with you (laptops and tablets are easier to read from than phones!) However, when we are not using them for class purposes, you should seriously consider putting them away especially your phone. No matter what you think, research has consistently shown how disruptive electronic interruptions are to our concentration and to our social relationships (I’d be happy to share many references with you, or perhaps you can bring some of that research into your class paper!) So get in the habit of turning on site-blocking browser add-ins and/or shutting off your phone completely during class. I have put a document with info on various blockers on D2L (e.g., you can block Facebook/Instagram/Snapchat between 8AM and 10AM only). See [https://freedom.to/blog/8-website-blockers-for-studying-productivity-focus/](https://freedom.to/blog/8-website-blockers-for-studying-productivity-focus/) for suggestions. Do yourself a favor and make this a more focused semester!

Finally, I reserve the right to ask you to shut down a device or to confiscate a device (yes, just like you are in high school) if your inattention is disruptive to me or others.

**Instructor Availability**: While I do have set office hours, I am available to meet with students at other times by appointment. I check my email regularly and respond in a timely manner; however, I will not answer after 9PM so send any questions about assignments that are due before that time.

**Recording/photographing others**. As members of a learning community, you are expected to respect the intellectual property of others as well as the ability of others to discuss topics freely within the confines of the classroom. Students may record lectures for their own course-related purposes with instructor permission. Students may not share those recordings without the advance written permission of the instructor and any students whose voice or image is included in the recording. Posting a photo/video or other recording of anyone in the class to social media without their written consent is a violation of this policy, and may result in a penalty up to a 0.0 as a course grade, as well as other academic disciplinary sanctions as described by university policy.

**Civility**. We may engage in discussions of topics where individuals have different opinions. It is important for you to recognize distinctions between opinions and facts, but also to in all cases show courtesy and respect for others. Please refrain from using language that others might find offensive, and express disagreements and counterarguments in diplomatic and civil ways. Uncivil behavior in the classroom may result in a 0.0 for participation points for an activity, as well as further sanctions and restrictions.

**Accommodations**. If you have a disability that will require accommodations, please see me within the first week of class to privately discuss your needs. If you will miss class or an assignment because of a religious observance, please let me know in advance.
Emergency Procedures. Please take time the first day of class to familiarize yourself with the classroom surroundings and multiple exits from the building. Think through your own plans for handling various emergencies that might arise during class. If an emergency occurs that would require class cancellation, I will send a notification via D2L.

Limits to confidentiality. Students should be aware that I am unable to maintain confidentiality when it conflicts with my responsibilities as a mandatory reporter within the university. That is I must report to other University offices any information you share with me regarding (1) suspected child abuse/neglect, even if this happened when you were a child, (2) allegations of sexual assault or harassment involving MSU students, faculty or staff, and (3) credible threats of harm to oneself or others. These reports may trigger contact from a campus official; in almost all cases, it will be your decision if you wish to speak to that individual. If you would like to talk about any of the above in a setting that is confidential and not bound by mandatory reporting, please make an appointment with the MSU Counseling Center.
