PSY101: Introductory Psychology

Summer Session II, 2020: Section 731

Instructor:
Daisuke Katsumata
he/him/his
email: katsuma2@msu.edu
PhD Student, Cognition and Cognitive Neuroscience

Office hours: Mondays 10 AM – 12 PM and Wednesdays 10 AM – 12 PM Eastern Standard Time. I will respond to emails within 10 minutes during my office hours and within 24 hours (if not sooner) on weekdays. Emails over the weekend will be addressed the following Monday.

For faster response times, all email subject lines must include “PSY101 Summer 2019”. Do not message me through D2L.

Textbook:
ISBN#: 978-1464140815

The book is strongly recommended but not required. It is possible you will be quizzed over material in the textbook, but not the lectures. The 12th edition and 10th edition are both acceptable, too. If using an edition other than the 11th (the course slides and recorded lectures use the 11th), know the chapter numbers are different in different editions of the book. Please check that the content matches in addition to the chapter number.

Course Goals:
The goals of this course are to: (1) introduce the basic concepts of psychology as a science; (2) present common research methodologies and psychological theories; and (3) increase awareness of the practical applications of psychology to everyday life.

Course Overview:
This course will be taught entirely through Desire 2 Learn (D2L). As you instructor, my job is to facilitate your learning experience through D2L, answer questions you might have about the subject matter, and manage the online course space. Should you have technical difficulties with D2L, please contact the D2L Help Desk or call their service number, (517) 432-6200, instead of emailing me. Please keep in mind that the Help Desk is hosted by MSU and is available daily 7am-midnight EDT.

A note about online courses: Since this course is completely online, it is your responsibility to make sure that you will have consistent access to the Internet throughout the course. Keep in mind that the workload in an accelerated summer course will be intense so plan accordingly! Remember, each week
of an accelerated summer course is equal to TWO WEEKS of a regular semester. Plan to spend around
4 hours per day working on PSY 101 (assuming a 5-day workweek). This includes the time you spend
reading the text, viewing lectures, working on homework problems, taking quizzes, and studying the
material. If you feel that you will not have the necessary time to successfully complete this course
because of your plans or personality, then consider dropping this class as soon as possible. The best way
to be successful in PSY 101 is to stay on top of the material.

If there is a problem during a quiz or activity, report it as soon as it occurs to the Help Desk. They
will log the problem and, in turn, report the details to the instructor. These technical problems
should be reported immediately (maximum 1 hour). If there is a system problem, then hearing
about what happens from more than one student will help to fix what is wrong. If it is just a
problem with your computer, the help desk can help troubleshoot that issue, too.

Getting Started in the Course
Log into D2L and go through the orientation materials. Once you have gone through those materials,
take the orientation quiz. Once you are done with the quiz, go through the other materials that will help
you with this course such as the “Need Help with D2L?” and “Research Requirement” tabs. Don’t forget
to visit the “Meet Your Psychology 101 Course Instructor” module. Once you have looked through those
materials, do Section 1 which includes the prologue and Chapter 1. For the rest of the semester,
continue going through the class as listed on the course schedule.

Grading:

Quizzes:
The majority of your grade for the course will be determined by seven open-book online quizzes,
consisting of 50 multiple-choice questions presented one to three questions at a time with no
backtracking. The quizzes will include material from lecture and the textbook readings. Each quiz will
open at 5 PM the Thursday of each week (excluding quiz 7 which opens on Wednesday). The quizzes will
be open until 11:59 PM the following day. For example, the first quiz will open at 5 PM on Thursday and
close at 11:59 PM on Friday. All times are Eastern Daylight Time (the time zone of Michigan State
University). Once you begin a quiz, you must finish it within 60 minutes. If you start a quiz with less than
an hour until it closes, you will have less than an hour to complete it. For example: a quiz started at
11:50 PM on Friday will close at 11:59 PM after only 9 minutes. Your lowest quiz grade will be dropped.
Each quiz will be worth 50 points. The final quiz will open a day early, on Wednesday, June 26, and be
due Thursday, June 27, at 11:59 PM (the final day of class).

Research Participation:
You will earn the remaining 25 points of your grade by participating in online psychological studies being
run by researchers at MSU. You must complete 5 hours of research participation in order to get these
points (2.5 points per half-hour). Details on how to do this are available on D2L. Please note that you
must be 18 or older to participate in research. If you are younger than 18, or if you prefer not to
participate in research, you may also earn these points by completing an alternative assignment, which
is described on D2L. If you have any questions pertaining to the Humans Participants in Research (HPR)
system, contact Audra Jeffrey at jeffre22@msu.edu. Please note that you must complete all research participation (or turn in alternative assignments) by Thursday, June 27th at 5 PM. No studies will be offered after that time.

Extra Credit Research Participation:

After completing your 5 required hours, you can earn one extra credit point for each half-hour of additional research participation, up to five hours or 10 extra credit points. These extra credit points may also be earned by completing the alternative assignments described on D2L.

Note: Grades with a decimal value of 0.5 or higher are rounded up to the nearest integer. So if your final grade is 89.5%, you will receive a 90% (4.0) in the class.

Grading Scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percent</th>

</table>

Making up Quizzes:
No makeup quizzes will be given unless you have a valid, documented excuse (e.g., a note from the dean, a note from your doctor recommending that you not attend class). The note cannot come from someone in your family. Notes excusing you from the quiz must be emailed to the instructor.

If you cannot take the exam because of a religious holiday, required participation in a university-sanctioned event (e.g., a commitment for a sports team), or some other acceptable event that can be foreseen, you must notify me at least two weeks in advance of the quiz day. Missing a quiz for any other reason will result in a grade of 0 for that quiz.

However, your lowest quiz grade will be dropped, so if you miss one quiz and don’t make it up, that will be your dropped grade.

It is your responsibility to contact me to arrange to make up a quiz.

Academic Honesty:
Article 2.3.3 of the Academic Freedom Report states that "The student shares with the faculty the responsibility for maintaining the integrity of scholarship, grades, and professional standards." In addition, the Psychology Department adheres to the policies on academic honesty as specified in
General Student Regulations 1.0, Protection of Scholarship and Grades; the all-University Policy on Integrity of Scholarship and Grades; and Ordinance 17.00, Examinations. The Ombudsperson’s office also has Frequently Asked Questions on academic honesty policies.

You are expected to develop original work for this course; therefore, unless otherwise specified, you are expected to complete all course assignments, including surveys and quizzes, without assistance from any source (except as specified in the assignment). This also means that you may not submit course work you completed for another course to satisfy the requirements for this course.

Any student caught cheating on a quiz will receive a zero for that quiz and be reported to the University. Repeated instances of cheating will result in a failing grade for the course.

In addition, plagiarism of written work is forbidden. It includes taking the work of another individual or source and presenting it as your own. This is considered plagiarism even if the source has given you permission to use their work, or the work is in the public domain (e.g., on the web). Students who violate MSU academic integrity rules may receive a penalty grade, including a failing grade on the assignment or in the course; and may be reported to the Office of Academic Affairs and the Office of Student Affairs. Contact me if you are unsure about the appropriateness of your course work. Or, for examples of what constitutes plagiarism, see: Plagiarism Example.

**Mandatory Reporting:**

Please be aware that as your instructor, I am a mandated to report the following information (including your name and the details of the disclosure) to the Office of Inclusion if you share it with me:

-Suspected child abuse/neglect, even if this maltreatment happened when you were a child,
-Allegations of sexual assault or sexual harassment when they involve MSU students, faculty or staff, and
-Credible threats of harm to oneself or to others.

The Office of Inclusion will reach out to you via a confidential email, to see if you would like to pursue legal action and to provide you with additional university resources. **You have the right to choose whether or not you would like to utilize any of these services or even respond to the university’s email.** If you would like to talk about these events in a more confidential setting, you are encouraged to make an appointment with the MSU Counseling Center.

**Accommodations for Disabilities:**

If you are a student with a disability, contact the Resource Center for Persons with Disabilities to establish reasonable accommodations (https://www.rcpd.msu.edu/). For an appointment with a counselor, call 353-9642 (voice) or 355-1293 (TTY). Once your eligibility for an accommodation has been determined, you will be issued a Verified Individual Services Accommodation (“VISA”) form. Please present this form to me at the start of the term and/or two weeks prior to the accommodation date (quiz, project, etc.). Requests received after this date may not be honored.

Note: Please keep in mind that the above schedule is a suggested schedule based on a 5-day workweek (as mentioned in the course overview). You may choose to do the quizzes earlier or study on weekends depending on your plans or personality. I reserve the right to make changes to the above schedule or to any other part of the syllabus to meet the educational objectives of this course, or if I discover an error. I will notify you of any changes. Please check your emails, the course homepage on D2L, etc.
